

Aristo Spectacles

Stylish & high performance safety spectacles

ESAB's safety eye wear combines the highest standards of safety and eye protection with excellent features for wearer comfort. This ensures that the eyes are optimally protected during operations. All ESAB spectacles use a Polycarbonate providing protection against impact as well as UV rays.

The Aristo Spec range of safety spectacles combine a high degree of comfort and protection to the user, whilst offering useful features like Anti Fog and Anti Scratch coating. Available in clear and smoked lens configurations, with the highest optical class.

Packed in a Perspex box with hanging slot
